

2009 Muskegon County

MANUFACTURERS DIRECTORY

INDEX

Muskegon Area First Mission

Muskegon Area First is a collaborative effort of economic development partners working to enhance the economic vitality in Muskegon County consistent with its quality of life.

This index contains a list of the over 300 Muskegon County manufacturers featured in the 2009 Muskegon County Manufacturers Directory. The directory, developed from a survey of these firms, includes the most up to date information available at the time of publication. As is evidenced by this index, the Muskegon Area has a vibrant manufacturing community, with just about all major sectors represented. Core industries include automotive, furniture, chemical, aerospace, and defense contracting.

A common thread that ties all these industries together is that of a well-qualified and educated workforce. With many technical programs available through Muskegon Community College, Baker College, MAISD Career Tech Center, and Muskegon County Department of Employment and Training Workforce Development, as well as bachelors and above opportunities at the Stevenson Center for Higher Education, our workforce is continually upgrading their skills to meet the needs of the changing economy.

In addition to an excellent business environment with available industrial buildings and land, extensive infrastructure, and a qualified workforce, the Muskegon area has an incredible quality of life. Not many are fortunate enough to live and work where others vacation, but here in Muskegon that is possible all year around.

A complete copy of the 2009 Manufacturers Directory that includes contact names, addresses, phone numbers, and employee counts (not all companies report employee counts) is available for purchase at \$15.00. Please stop by our office at 380 W. Western, Suite 202 or contact Eugenia Brown at 231-724-3179.
